

## **ART/DISCOVERY SUMMER CAMPS 2018**

### **Drawing Camp (grades K-7)- Instructor: Kirsten O'Rourke Benfield**

During this week-long camp, campers will explore the various materials used in drawing, as well as the fundamental skill-building necessary for successful drawing. Adventures in contour line, positive and negative space, introductory perspective, and the basics of value and shading will provide young artists with the opportunity to experience drawing in many forms, learn basic terminology, and engage in meaningful interaction with others, all while creating works of art they can be proud of.

Dates: June 18<sup>th</sup>-22<sup>nd</sup>

Time: 9:00-10:30

Price: \$135 with a \$15 materials fee (Total: \$150)

### **Art Camp (grades K-7)- Instructor: Kirsten O'Rourke Benfield**

During this week-long camp, campers will explore the various materials used in creating art, as well as the basic elements of design: line, shape, color, value, texture, form, and space.

Adventures in drawing, painting, printmaking, collage, and sculpture, will provide young artists with the opportunity to experience new art forms, learn basic terminology, and engage in meaningful interaction with others, all while creating works of art they can be proud of.

Dates: June 18<sup>th</sup>-22<sup>nd</sup>

Time: 10:30-12:00

Price: \$135 with a \$15 materials fee (Total: \$150)

### **Junior Adventurers Camp (grades K-7)-Instructor: Kirsten Benfield**

During this week-long camp, campers will explore a different region of the world each day, learning about the culture, customs, geography, food, and traditions of each country through hands on activities. Junior Adventurers will have fun making masks, sculptures, pinatas, hats, and other traditional artwork, while learning the songs, stories, and history of each region or country.

Dates: June 18<sup>th</sup>-22<sup>nd</sup>

Time: 1:00-2:30

Price: \$135 with a \$20 materials fee (Total: \$155)

### **Discovery Camp (grades K-7)-Instructor: Kirsten Benfield**

During this week-long camp, campers will make their own bouncy balls, crystal stars, glow-in-the-dark slime, convection currents (tornado in a jar), elephant toothpaste, and more, all while learning through hands on experiments designed to teach them about our world.

Dates: June 18<sup>th</sup>-22<sup>nd</sup>

Time: 2:30-4:00

Price: \$135 with a \$20 materials fee (Total: \$155)
